REIMS, the 15th of june 2020

CASE : UNACS/SURGISPHERE
OUR REF. : 2020223 EL/CA

OBJECT : COMPLAINT

Dear Mister Attorney General,

I am a Lawyer in France **representing the UNACS' association**, based 20 rue Sainte Marie 14100 LISIEUX -France, by its President Mister Jacques BESSIN, which defends the right to health

I would like to file a complaint on their behalf against **SURGISPHERE**, by its President Sapan DESAI, company based : 875 N Michigan Ave- 60611 CHICAGO, County Cook Illinois, US, for forgery, fraud, and breach of trust.

Indeed, this company said she had collected from US hospitals and private practices some personal and medical data allowing a survey on the Chloroquine's efficiency in the Covid-19 treatment, arguing this medicine was toxic.

Medical experts have, on this base, established a survey that has been demonstrated false, leading to its withdrawal.

Their survey nevertheless had consequences, such as the end of use of the Chloroquine in several countries and, undubitably, led to avoidable deaths.

It, then, appears SURGISPHERE didn't really collect medical data.

website : www.maitre-emmanuel-ludot.fr

The medical data on no-less than 96.000 patients in said 671 hospitals in the 6 continents as presented by SURGISPHERE were fraudulous.

SURGISPHERE said it has the 27001 certification.

However, information taken, no certificate was delivered by IAS or LSTI.

There is enough to sue this company and maybe more to discover.

I think the state in which this company is based would be interested in finding out more and sue them.

I am at your disposal for more information and thanking you in advance for your time.

Best regards,

Emmanuel LUDOT
